CD · PACKAGING

Digipak, 4 panels

A card case that opens like a book, with a clear tray for the disc. Printed on one side, 4/0, on a single sheet, with a matte or gloss finish.

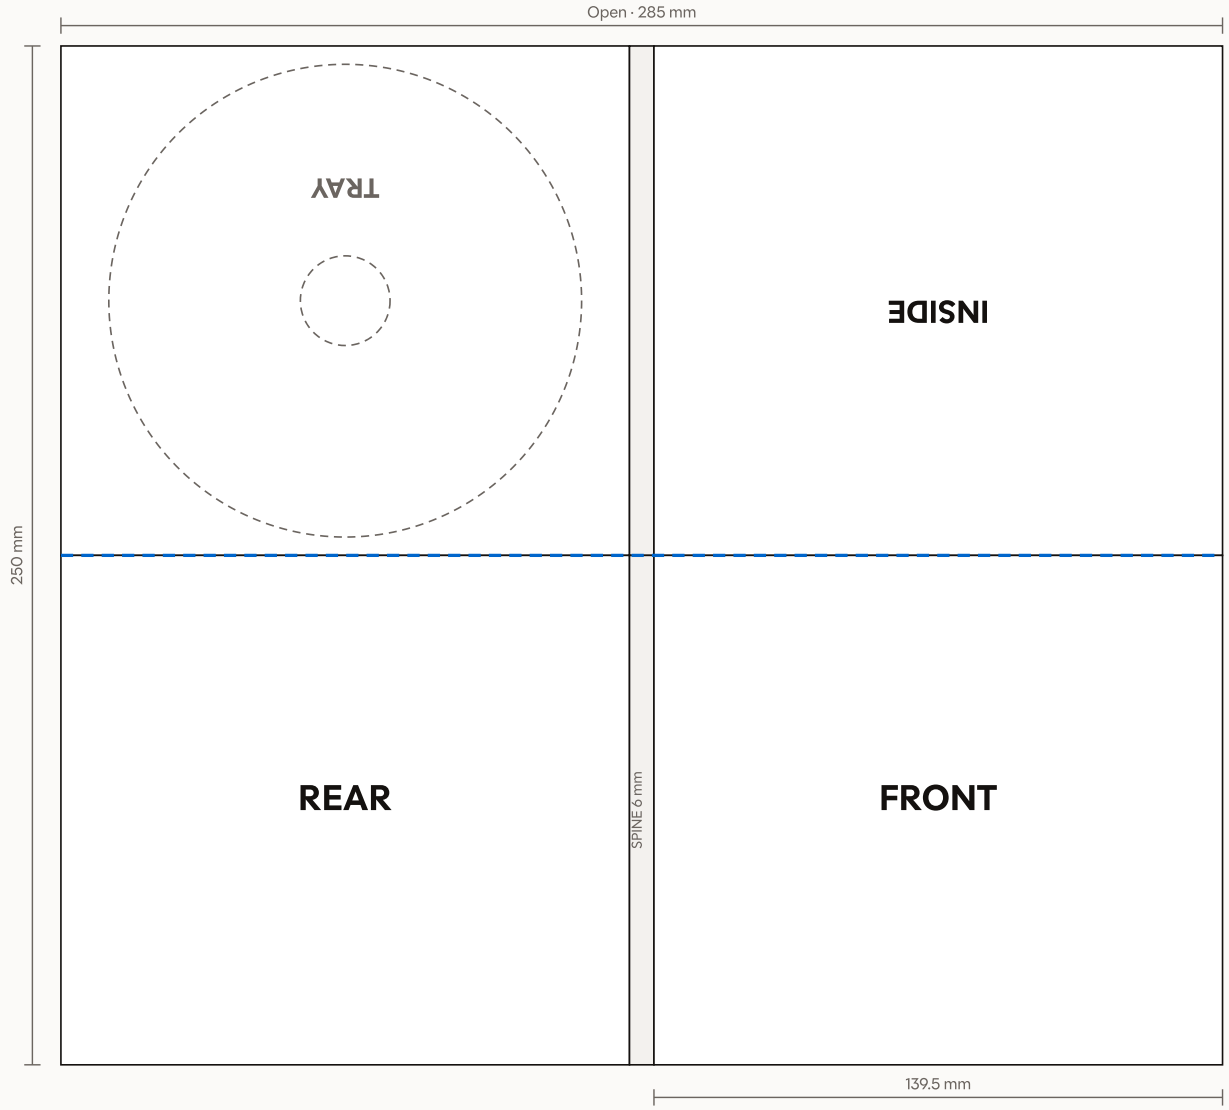

FINISHED	OPEN
139.5 × 125 × 6 mm	**285 × 250 mm**

TRAY	FINISH
Clear, glued inside	**Matte or gloss**

Your file

- PDF/X-4 (ISO Coated v2), CMYK. RGB files are converted.
- Images at 300 dpi or more at their placed size.
- 3 mm bleed on every side, with crop marks.
- Keep text, barcodes and logos at least 2–3 mm inside the cut.
- One page, 285 × 250 mm, laid out on the template (InDesign .idml, Illustrator .ai or .pdf): the outside on the lower half, the inside on the upper half, upside down.

> The tray covers most of its panel. Artwork there shows only through the clear plastic.

The flat sheet as printed. Blue dashes: fold, the upper half turns inside. Proportions to scale.
