tinyvinyl™

ARTWORK REQUIREMENTS

Keep “Cutter Guide” Layer locked. Place artwork only on “Artwork” layer.

Linked image files must be 300 DPI and in a CMYK color space.

Ensure minimum text size is 5pt.

Place tiny vinyl logo at the top of the spine.

Place tiny vinyl catalog number at the bottom of the spine.

Place tiny vinyl logo and included “plays at 33 rpm on most turntables” text on the back of the jacket.

Place inside gatefold artwork upside down in template. Artwork will appear rightside up in final print.

Ensure minimum size of 30x15 mm for UPC Barcodes.
